

---

HARDEN VILLAGE NEIGHBOURHOOD PLAN  
DRAFT ISSUE: SUMMER 2020

## FOREWORD BY CHAIR

## THE CLIMATE EMERGENCY

Harden became one of the first rural communities in Yorkshire to declare a climate emergency. In declaring a climate emergency the Village Council has committed to:

- Put the emergency at the forefront of discussions and decision-making, ensuring negative environmental impact is avoided, minimised or mitigated.
- Establish a set of actions and commitments for working with and supporting local residents, groups and businesses to be more sustainable, progress against which will be assessed regularly.
- Call on the Government and Bradford Council to provide the resources and powers so that our village can make its contribution to the UK's carbon reduction targets and help avert the emergency.

The Neighbourhood Plan has a range of policies that will seek to improve Harden's resilience to the effects of climate change, reduce carbon emissions and promote healthy and active communities.

Contained within Village Action Plan are several projects and initiatives that the Village Council and local community will seek to deliver in parallel to the Neighbourhood Plan.

## **VISION**

**Harden will be a vibrant, inclusive, sustainable rural community, with attractive green spaces and high quality housing and facilities, making it a desirable place for people to live and enjoy, now and into the future.**

# 01

## INTRODUCTION

### **1. INTRODUCTION**

- 1.1 The Hardenr Neighbourhood Plan covers the whole of the Civil Parish of Harden as indicated on the Boundary Map opposite.
- 1.2 The Neighbourhood Plan Area was formally approved by City of Bradford Metropolitan District Council (CBMDC) on Wednesday 30 August 2017 in accordance with the Localism Act, 2011, and the Neighbourhood Planning (General) Regulations, 2012.
- 1.3 The Neighbourhood Plan has been produced on behalf of Harden Village Council in accordance with the above-mentioned statutory provisions together with guidance contained in the National Planning Policy Framework, (“NPPF”) and Planning Practice Guidance (“PPG”) issued by the Department of Communities and Local Government (“DCLG”).
- 1.4 The strategic planning policy background to the Neighbourhood Plan is provided by the adopted CBMDC Core Strategy (2017) and the emerging Land Allocations Development Plan Document.
- 1.5 The Neighbourhood Plan covers the same period as the CBMDC Core Strategy to 2030. CBMDC are in the process of undertaking a Core Strategy Partial Review (CSPR) which is expected to be adopted in 2022. The Neighbourhood Plan has been prepared with the emerging CSPR in mind and references provisional figures such as housing allocations.

## 1.2 PROCESS & TIMELINE

Following the designation of the Harden Neighbourhood Plan boundary a project group was set up comprising Village Councillors and residents to help progress work on the Neighbourhood Plan.

A brief timeline outlining the key stages of the Neighbourhood Plan is below:

August 2017	Designation of Neighbourhood Plan boundary
August 2018	Appointment of consultants Integreat PLUS
September 2018	Development of project timeline
September 2018	Initial community engagement
November 2018	Development of vision, aims and objectives
November 2018	Evidence gathering
March 2019	Developing draft Neighbourhood Plan
September 2019	Continued community engagement
March 2020	Transport assessment
March 2020	Independent Housing Needs Assessment
March 2020	Development of Harden Village Design Code
April 2020	Development of draft Neighbourhood Plan

A summary of the engagement and consultation activities that inform and support the plan is outlined below:

- September 2018 - Initial engagement to gain an understanding of key issues and local aspirations
- September 2018 Online and physical survey - completed by 84 people
- September 2018 - Drop-in event attended by 30 people
- November 2018 - Community feedback session
- Project group meetings to develop vision, aims and objectives and initial policies
- August 2019 - Initial draft plan produced
- September 2019 - Consultation on initial draft plan through online and physical feedback
- September 2019 - Drop-in event received 42 representations covering a wide range of issues

Local businesses, groups and organisations including the school, nursery and church have been directly consulted with and encouraged to share their views including those of their staff, members and family.

**HARDEN  
NEIGHBOURHOOD PLAN**

**SUMMARY OF INITIAL  
ENGAGEMENT**

**HARDEN  
NEIGHBOURHOOD PLAN**

**SUMMARY OF CONSULTATION  
HELD SEPTEMBER 2019**

### 1.3 ENGAGEMENT

To date there have been 166 representations made at various engagement exercises split between physical copies of surveys, online comments and surveys and by attendees at drop-in events.

**166 REPRESENTATIONS**

The engagement exercises identified broad themes which have been discussed by the steering group over a series of meetings supported by an independent town planning consultant from Integreat PLUS.

A full copy of the results of initial engagement can be found on the Village Council website along with minutes of all meetings.

[www.hardenvillagecouncil.gov.uk](http://www.hardenvillagecouncil.gov.uk)

### WHAT ISSUES SHOULD THE PLAN COVER

In the survey respondents were asked what issues they feel the plan should cover. 83 people responded to this question.

The results of this question were discussed and six key themes incorporating the identified issues were developed. They are:

- Housing
- Transport & Movement
- Green Spaces & Natural Environment
- Community Facilities, Services & Leisure
- Business & Employment
- Heritage

## WHAT DO YOU VALUE THE MOST ABOUT HARDEN?

Respondents were asked what they value the most about Harden. 83 people responded to this question.

The most popular responses received relate to residents' enjoyment of and appreciation for the rural nature of the village and its character.

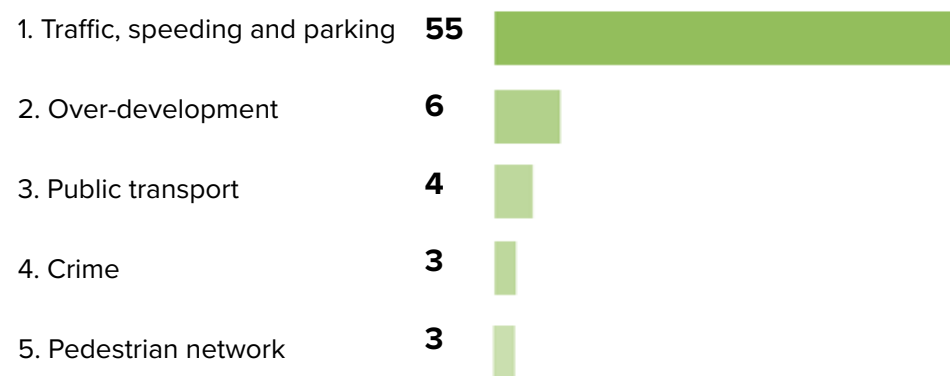

Other responses include appreciation for its amenities and facilities, the opportunities for recreational activities and leisure pursuits, and connections to nearby villages, towns and cities.

The Neighbourhood Plan responds to these comments by producing a register of local amenities and facilities which it seeks to protect to ensure vital community facilities continue to serve the local population.

A Village Character Assessment and Design Code has been produced which assess and details the distinctive character and qualities of the village. This will be used by developers to ensure that new developments respond to the character of the village.

## WHAT DO YOU LIKE LEAST ABOUT HARDEN?

Respondents were asked what they like least the about Harden. 83 people responded to this question.

Overwhelmingly the most common response relates to traffic, speeding and parking. The Neighbourhood Plan is limited in its scope to address these issues but does contain both policies and design guidance which seek to address these issues. A transport assessment has been undertaken on behalf of Harden Village Council, which includes a set of recommendations to improve pedestrian and cycle safety and to reduce traffic speeds. The Neighbourhood Plan references these proposals and it is anticipated Harden Village Council will work with key stakeholders to assess the viability of the proposals and seek to deliver them.

The walking and cycling network is also covered in the Neighbourhood Plan and seeks to ensure new developments connect with and where required enhance the network.

Over-development is addressed in the Harden Design Code.

## WHAT TYPES OF NEW HOUSING IS NEEDED?

Respondents were asked what types of new housing are needed in Harden. 75 people responded to this question.

To provide additional evidence to support the results of community engagement an independent Housing Needs Assessment has been undertaken which has identified that:

- A greater proportion of smaller properties are needed
- Harden has a higher proportion of people aged over 65 when compared to the district and England so a greater number of appropriate properties are required
- A high proportion of large properties already exist in the village and new developments of large properties should be resisted

These points are addressed in policy H2.

## GROUPS THAT LACK SERVICES OR FACILITIES

Respondents were asked what groups of people lack services or facilities locally. This question was answered by 64 people.

The Neighbourhood Plan has responded to this by including policies which seek to provide new facilities and services for the groups mentioned.

Where it is not appropriate to include proposals as a policy, they have been included as part of the Village Action Plan.

## HARDEN IN 15 YEARS

People were asked what they thought Harden should be like as a village in 15 years' time. 81 people responded to this question.

The Neighbourhood Plan has responded to this by producing a Village Character Assessment and Design Code which details sets out key principles for new development so that they are of high quality and retain the character of the village. The aims and objectives are informed by these responses and policies to promote increased services and businesses are also included.

The Neighbourhood Plan seeks to retain key green spaces by designating them as Local Green Spaces, which are to be protected from development.

## CONCERNS ABOUT THE FUTURE OF HARDEN

People were asked what, if any, concerns they had about the future of Harden. This was answered by 76 people.

The Neighbourhood Plan has assessed these comments and has taken steps where possible to ensure that these concerns have been addressed through either planning policy, design guidance or through village projects.

## ENGAGEMENT ACTIVITIES

In addition to the engagement survey community drop-in events were held in the summer of 2018 and the summer of 2019 to discuss a variety of themes and issues with local people.

A full summary report has been produced which can be found on the village council website.

Short summary of summer 2018 drop-in event comments:

- Better pedestrian footpaths needed to Bingley and to Wilsden
- Improvements to crossing at St. Ives entrance & mini roundabout
- Improved signage needed on walking routes
- Smaller housing needed for young families and older households wishing to down-size
- Parking provision and visitor parking key in new schemes
- Worries about strain on local services (doctor & schools)
- Improved broadband coverage is needed
- Support for small businesses and shops (cafe, bakery etc)
- Support for shared workspace, workshops, small business units
- Encourage greater mix of residents throughout the village
- Suggestion of using unused school field as car park

The points raised above have been considered by the project group, and where appropriate have been included in either the Neighbourhood Plan, Design Code, or as a Village Project.

Short summary of summer 2019 drop-in event comments:

- Greater reference to climate emergency in Neighbourhood Plan
- Vision should include retaining character of village
- Housing for the elderly is desperately needed
- All new houses should have solar panels, insulation and rainwater storage
- Bungalows are needed (or accessible homes)
- Protect key views
- Car parking and addressing speeding are important
- Improved and safer walking routes needed, especially near busy roads
- Greater use of existing buildings to benefit the community
- More facilities and recreational opportunities for young people and families
- Take over management of the old dam and improve biodiversity
- Green spaces must be protected
- Wildlife corridors are really important
- Encourage more tree planting throughout the village
- Preserve the village's heritage
- Dry stone walls are very important to the character of Harden
- Allotments and community gardening is needed
- Safety really important for pedestrians, especially for young people

The points raised above have been assessed by the project group and where appropriate have been included in either the Neighbourhood Plan, the Design Code, or as a Village Project.

## 1.4 NEIGHBOURHOOD PLAN VISION

**“A vibrant, inclusive, sustainable rural community, with attractive green spaces and high quality housing and facilities, making it a desirable place for people to live and enjoy, now and into the future.”**

### NEIGHBOURHOOD PLAN AIMS & OBJECTIVES

1. Improve resilience to the effects of, and take urgent action against, the climate emergency, working towards becoming a sustainable and low-carbon village
2. Ensure that new housing meets local needs both now and in the future
3. Promote high quality design in all new developments, which responds to and reinforces local character and is built to the highest enforceable standards of sustainable building performance
4. Conserve and enhance green spaces, heritage assets and the character of the village for everyone to enjoy now and in the future, including access and amenity, and provision of allotments/community gardening
5. Improve pedestrian and cycle infrastructure and support and enable greater use of sustainable and healthy transport methods, and greater mobility for all
6. Work towards better management of traffic, speeding and parking issues that negatively affect the community
7. Encourage new leisure and recreational opportunities, especially for young people
8. Protect existing facilities, and support the expansion and development of new community facilities in line with local needs and aspirations
9. Protect existing businesses and encourage appropriate new business activity
10. Encourage better, high-speed internet coverage

# 02 HOUSING

## 2.0 INTRODUCTION

By 2030 Harden will receive around 25 new houses as part of the housing allocation in Bradford Council's emerging Core Strategy Partial Review.

It is important that new housing in Harden not only meets the present needs of the community but is also designed and built to address the future challenges we face.

## 2.1 COMMUNITY ENGAGEMENT IDENTIFIED THAT:

- The design of new housing was the 3rd most important issue for the Neighbourhood Plan to address.
- The type and size of new housing was the 4th most important issue for the Neighbourhood Plan to address.
- The most popular types and sizes of housing suggested by members of the community are: housing that is suitable for older people, environmentally friendly housing, houses aimed at first time buyers, and medium sized family housing.
- At the drop-in event there were several suggestions that more smaller properties are required for small families or older people wishing to downsize.

## 2.2 KEY OBJECTIVES

- Ensure new housing is inclusive, accessible and designed to meet the needs of an ageing population, and the changing needs of residents
- Secure a mix of house types and sizes to meet local needs
- Build low-carbon, energy efficient and sustainable homes
- Develop well designed homes and neighbourhoods that respond to and reinforce the distinctive character of Harden, including enhancements to existing properties

## POLICY H1: SUSTAINABLE HOMES & RENEWABLE ENERGY

The design and standard of any new development should aim to meet a high level of sustainable design and construction and be optimised for energy efficiency, targeting zero carbon emissions. This includes the provision of:

- high quality, thermally efficient building materials;
- the installation of energy efficiency measures such as loft and wall insulation, and at a minimum, double glazing;
- on-site energy generation from renewable sources.

Where appropriate, developments should include sustainable drainage systems (SuDS) and other flood mitigating and grey water solutions.

This policy seeks to ensure new homes in Harden are energy efficient, well insulated and include the provision of renewable energy technologies. This can contribute to lower energy consumption and therefore lower fuel costs for occupants.

At initial engagement 58 people felt the Plan should cover design of new housing and 38 people felt Harden needed more environmentally friendly homes.

This policy seeks to achieve aims & objectives

## POLICY H2: HOUSE TYPE & MIX

New housing developments of 10 or more dwellings will be required to provide a mix of house types and sizes to meet the needs of the local community including:

- a minimum of 35% dwellings of no more than 2 bedrooms;
- a minimum of 30% 3 bedrooms

The remainder of the mix can be determined by the applicant to ensure the proposal is viable.

Only if it can be clearly demonstrated through robust, up-to-date market evidence, will an alternative mix be permitted if the above mix is not viable.

An independent Housing Needs Assessment (HNA) has been produced for the village which identified the need to secure a higher proportion of smaller properties within the plan period. Whilst the HNA has stated that the Neighbourhood Plan should seek to secure 28% 1 bed, 22% 2 bed and 50% 3 bed properties the Neighbourhood Plan has reduced these figures to provide more flexibility to applicants whilst still securing smaller properties.

The full HNA will be attached as a supporting document to the Neighbourhood Plan.

This policy seeks to ensure new developments provide a mix of house types and sizes to meet the needs of the local community.

This policy seeks to achieve aims & objectives

2

### **POLICY H3: HIGH QUALITY DESIGN**

New developments should respond to and reinforce the defining characteristics of its local area including: scale, massing, materials, layout, and architectural detailing.

Applicants should refer to the Harden Design Code and demonstrate in any planning application how its principles have been incorporated.

This policy seeks to ensure that new housing developments are designed so that they respond to and reinforce the character of Harden and address key local issues.

At initial engagement the design of new housing was the 3rd most popular response when asked what issues the Neighbourhood Plan should cover.

The Harden Design Code covers a range of issues and sets acceptable design parameters for new development. The document should be read in conjunction with CBMDC supplementary planning documents Homes and Neighbourhoods: A guide to designing in Bradford.

This policy seeks to achieve aims & objectives

3

### **POLICY H4: HOMEWORKING**

New housing developments are encouraged to include the provision of space to facilitate homeworking.

This policy recognises that more people are choosing to work from home, especially self employed people, older people, and those in rural areas (Financial Times 2014). This trend is likely to continue in the future and it is felt that appropriate space to facilitate homeworking is required.

Space to facilitate homeworking does not necessarily mean the provision of a dedicated office space or spare/additional room within the property. It could mean ensuring there is enough space in habitable rooms to include a desk, chair and storage. This has been highlighted as a key issue during the Covid-19 pandemic as many people have been working from home in inadequate working conditions.

As working practices continue to change more people are likely to be working from home and ensuring that homeworking can be comfortably accommodated in properties is essential. Yorkshire has the smallest average room sizes in England in new developments, and England has the smallest average room sizes in Europe in new developments (RIBA Case for Space 2011). It is essential that rooms are large enough to accommodate the necessary furnishing and artefacts to not only support general living but also homeworking.

This policy seeks to achieve aims & objectives

2

9

**POLICY H5: BUILDING FOR LIFE & LIFETIME HOMES**

New housing developments should be built to Building for Life 12 (or newer version) standards. Only schemes that match or exceed the accreditation threshold of 9 or more out of 12 will be supported, providing other material considerations are satisfied.

In schemes of 10 or more houses 30% of dwellings should be built to Lifetime Homes standards.

Building for Life is a set of 12 development principles that contribute to creating well-designed homes and neighbourhoods. These principles are scored on a traffic light system. Schemes that score 9 or more green out of 12 will qualify for Building for Life accreditation.

Lifetime Homes incorporates design criteria that ensures housing is accessible and inclusive. This recognises that homes are not always suitable or adaptable for the changing needs of residents throughout their life. This incorporates 16 design criteria that can be applied universally to new homes. Whilst there can be costs associated with building to these standards, the costs can be reduced by designing these criteria early in the design process.

Harden has a higher proportion of residents aged over 65 when compared to the district and to England and this is set to increase within the plan period.

Lifetime Homes principles and design guidance are included in the Harden Design Code.

This policy seeks to achieve aims & objectives

2 3

**POLICY H6: HIGH-SPEED BROADBAND**

All new housing development should be designed to connect to high quality communications infrastructure.

Support will be given for proposals that help to provide improved or additional connectivity for the village as a whole, providing other material planning considerations are satisfied.

This policy seeks to achieve aims & objectives

2 9 10

# 03 TRANSPORT & MOVEMENT

## 3.0 INTRODUCTION

Harden aspires to being a community where people can access opportunities easily, and get around in healthy and sustainable ways, benefiting themselves, others and the environment. The community wants to be well-connected to employment, education and leisure opportunities, while also reducing traffic noise, pollution and congestion, especially by enabling more people to walk, cycle and use public transport.

## 3.1 KEY OBJECTIVES

- Improve pedestrian and cycle infrastructure and support and enable greater use of sustainable and healthy transport methods, and greater mobility for all.
- Work towards better management of traffic, speeding and parking issues that negatively affect the community.

This part of the plan will also contribute to these wider aims:

- Encourage and support more sustainable living, striving towards being carbon-neutral.
- Preserve and enhance green spaces and heritage assets for everyone to enjoy now and in the future.

## 3.2 KEY ISSUES

Community engagement, consultation, and discussions by the Neighbourhood Planning group, and a review of local data and wider evidence identified five issues to focus on:

- Walking and cycling
- Public transport links
- Traffic volume, noise and pollution
- Speed and safety
- Problem parking

**POLICY TM1: HARDEN TO BINGLEY ACTIVE TRAVEL**

The creation of enhanced walking and cycle infrastructure connecting Harden to Bingley is encouraged and will be supported.

This policy gives support to the provision of enhanced walking and cycling connections from Harden to Bingley – Harden’s closest major conurbation. At present the primary connection along Harden road is meagre, and in places is unsafe and unwelcoming. To the east of Woodbank Nurseries only the southern side of the road has pavements.

The width of the pavement is narrow and restricts users to travel in single-file. People with pushchairs, wheelchair, or mobility scooters are unlikely to be able to use the route safely at all.

Walking or cycling along Harden Road can also be intimidating due to the high speed and volume of traffic. This policy supports the aims and objectives of the plan by seeking to provide safer and healthier options of travel to Bingley, which boasts public transport connections to the wider area.

This policy seeks to achieve aims & objectives

5

**POLICY T2: PEDESTRIAN & CYCLE CONNECTIONS**

All new developments will be expected to connect with existing footpaths and cycle paths, where available, and where possible, improve the network. Developments should allow for safe and convenient pedestrian and cycle movement to local facilities, shops, schools and public transport connections.

This policy seeks to ensure that new developments are well connected to pedestrian and cycle connections. It responds to the aims and objectives of the plan which promote safe and convenient pedestrian and cycle movement throughout the village and to the wider area.

This policy seeks to achieve aims & objectives

5

**POLICY T3: SPEED MANAGEMENT & PEDESTRIAN AND CYCLE SAFETY**

Proposals leading to improvements to pedestrian and cycle safety, and improvements to speed and traffic management throughout the village are encouraged and will be supported.

Engagement responses highlighted speeding and high volumes of vehicular traffic as key issues in Harden, in addition to concerns around the safety of pedestrians and cyclists on key routes. A transport assessment has been produced by external consultants which provides evidence to support local views around speeding and high volumes of vehicles.

The report provides several recommendations such as: the introduction of a 20mph speed limit throughout the village with accompanying appropriate speed management measures, and a range of specific engineering measures in the village to improve walk/cycle-ability, such as a footway across Goit Stock Bridge and improved signage and markings.

The Neighbourhood Plan encourages and supports proposals which seek to address these issues and Harden Village Council will work closely with CBMDC, highways authorities, and local stakeholders including neighbouring villages to work towards implementing appropriate measures.

This policy seeks to achieve aims & objectives

6

**POLICY TM4: ELECTRIC VEHICLE CHARGING POINTS**

New housing developments are expected to provide on-site electric vehicle charging points.

To promote more sustainable travel habits the Neighbourhood Plan supports and encourages the inclusion of electric vehicle charging points in new housing developments.

It is expected that the use of electric vehicles will increase in the near future and Harden aims to secure the infrastructure needed to support this. Increased use of electric vehicles can help reduce carbon emissions and reduce the noise of traffic which are contained in the aims and objectives for the Plan.

This policy seeks to achieve aims & objectives

1 2 5

## POLICY T5: PARKING SOLUTIONS

New residential developments are expected to comply with design guidance contained in the plan to produce design-led street layouts and parking solutions that provide:

- high quality and secure on-site cycle storage,
- the minimum expected amount of parking spaces in line with CBMDC standards, and appropriate visitor parking bays, where necessary,
- garages and driveways to the rear or side of properties in the same style as the house they serve, with minimum internal dimension of the garages 3.5m x 6m and driveways a minimum of 3.5m in width.

This policy seeks to ensure that new residential development not only provides adequate parking provision but also includes provision and infrastructure to support cyclists. Engagement responses cited problem parking as a key issue in the Village and new residential developments should not exacerbate the problem.

Some garages locally are not large enough to store cars - so the Plan proposes minimum internal dimensions in line with Lifetime Homes standards that will enable residents to park and enter/exit the vehicle both on the driveway and in the garage. This policy responds to the aims and objectives of the Plan by promoting and enabling more sustainable travel habits through the inclusion and promotion of pedestrian and cycle infrastructure whilst also aiming to reduce issues around problem or inconsiderate parking through requiring adequate parking and garaging solutions.

This policy seeks to achieve aims & objectives

# 04 COMMUNITY FACILITIES & SERVICES

## 4.0 INTRODUCTION

Harden has a variety of services and facilities that are valued by the local community. The Neighbourhood Plan is seeking to retain and, where possible, enhance these facilities so that they can continue to serve the community and help reduce the need for residents and visitors to travel outside of the village to access amenities and services. The Plan also supports the creation of new services and facilities in Harden to help meet the changing needs of the community.

### 4.1 KEY OBJECTIVES:

- Protect existing community facilities and services
- Support the expansion of existing facilities or the development of new facilities or amenities
- Encourage projects that would improve the village's resilience to climate change and/or help reduce the village's carbon footprint
- Encourage new recreational and leisure opportunities
- Improve pedestrian and cycle infrastructure and promote greater use of sustainable transport methods and healthy mobility opportunities for people of all ages and abilities

### 4.2 COMMUNITY ENGAGEMENT IDENTIFIED THAT:

- Through the initial survey, amenities and facilities was the 3rd most popular response when asked what people value the most about Harden.
- 48 people said that they felt the plan should cover community facilities and services.
- Improved community services was the 2nd most popular response when asked what Harden should be like in 15 years.

### **POLICY C1: COMMUNITY INFRASTRUCTURE LEVY**

A portion of Community Infrastructure Levy (CIL) money will be used to fund the development, improvement and maintenance of walking and cycling routes, in addition to other identified village projects.

This policy seeks to allocate CIL funds to maintain and enhance local walking and cycling routes throughout the village. The Plan objectives seek to promote more sustainable and healthier travel choices and to enable this improvements to the local network of footpaths and cycleways are needed.

Throughout initial engagement respondents cited high quality green and open spaces as one of the Village’s key assets and the Plan is keen to maintain, and where possible, enhance access to these amenities. Footpaths and cycleways are highly valued and well used by residents and visitors alike for leisure and recreational purposes.

The Neighbourhood Plan Project group is working with local stakeholders to undertake regular condition surveys of key routes to identify where maintenance and improvements may be required. This policy is also in recognition of the restricted resources and competing priorities of CBMDC which would usually be responsible for these actions.

This policy seeks to achieve aims & objectives

- 4
- 5
- 8

### **POLICY C2: COMMUNITY ENERGY SCHEMES**

Proposals for community renewable energy generation, storage and distribution schemes are supported and encouraged providing:

- the siting and scale is appropriate to its setting and position in the landscape;
- it does not create unacceptable impact on a feature of natural or biodiversity importance;
- it does not have unacceptable impact on amenities of residents.

Harden is aiming to become a low-carbon village and community renewable energy schemes have the potential to contribute to reducing the village’s carbon footprint through the generation and use of clean energy in homes and businesses.

The Plan seeks to strike a balance between any impact on the landscape resulting from the development of renewable energy infrastructure and the many benefits such schemes would bring.

This policy seeks to achieve aim & objective

- 1

### **POLICY C3: COMMUNITY FACILITIES & SERVICES**

Existing community facilities, as identified, including Assets of Community Value, should be retained for continued community use, unless it can be demonstrated there is no longer a need for the facility or it is no longer viable.

- A) Woodbank Nurseries (including cafe)
- B) Harden Cricket Club
- C) Harden Football Pitch
- D) Harden Memorial Hall
- E) Harden Pharmacy
- F) The Golden Fleece Inn
- G) The Fresh Approach Convenience Store
- H) Go Local Convenience Store & Post Office
- I) G Snowden & Sons Butchers
- J) Harden Fisheries
- K) Hair Den Hair Salon
- L) Bespoke Beauty Salon
- M) The Wellbeing Suite
- N) The Malt Public House
- O) Harden Congressional Church
- P) St Saviours Church
- Q) Harden Park Lodge
- R) Harden Golf Club & Club House
- S) St Ives & Discovery Centre

Support is given to the expansion of existing, or development of new facilities or services, to meet local needs, including play and recreational spaces, health and wellbeing facilities, and spaces that encourage and facilitate social interaction.

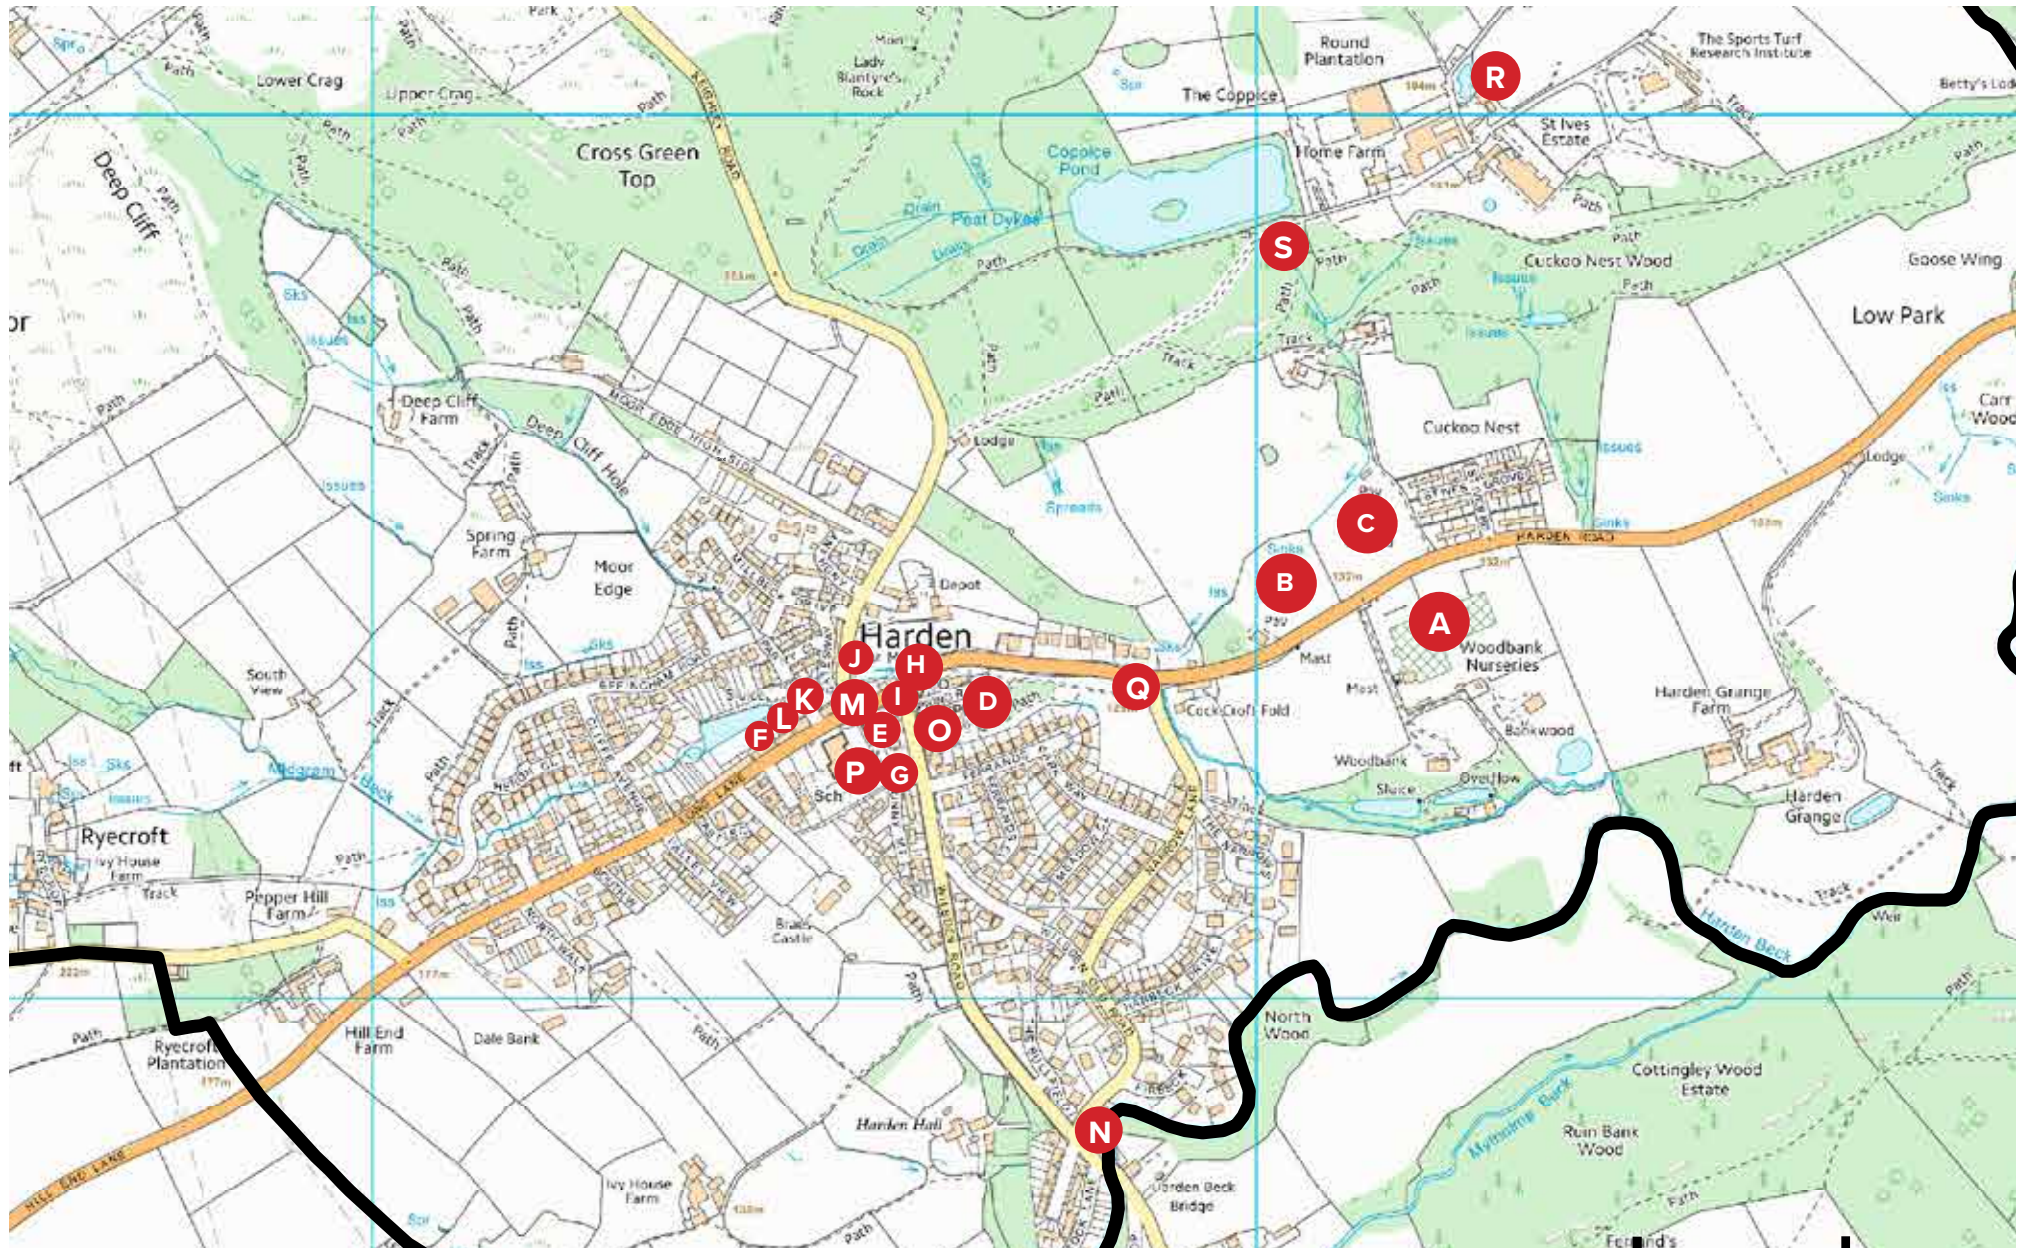

Local people highly value the facilities and services in Harden and it is essential these are retained, where possible, to continue to serve the community and reduce the need for people to travel outside the Village to access amenities and services.

These facilities and amenities have been suggested by members of the steering group because of the contribution they make to the day-to-day lives of the community.

This policy seeks to achieve aims & objectives

7 8

### MAP OF COMMUNITY FACILITIES & SERVICES

# 05 GREEN SPACES

## 5.0 INTRODUCTION

Harden has a rich variety of natural assets and open and green spaces that contribute to the health and wellbeing of residents and visitors, in addition to supporting biodiversity. This includes ancient and semi-natural woodlands, moorlands, meadows, water courses, grasslands, and pastures. Many of these sites are designated as Local Wildlife Sites and fall within the Bradford Wildlife Habitat Network due to their importance in supporting flora and fauna.

These spaces support recreational and leisure activities and contribute greatly to the tranquillity and rural character of Harden.

### 5.1 COMMUNITY ENGAGEMENT IDENTIFIED THAT:

- The rural nature, countryside and green spaces were the 2nd most popular response to what people like most about Harden.
- Green spaces was the most important issue when people were asked what the Neighbourhood Plan should cover.

### 5.2 KEY OBJECTIVES:

- Protect and, if possible, enhance green spaces and natural assets
- Secure green infrastructure as part of new developments and protect existing green infrastructure provision
- Encourage the connection of separate green spaces in Harden to create a series of interlinked natural assets into the wider environment forming wildlife and biodiversity corridors

Some of the proposals or projects identified in this section could be delivered locally through volunteer groups or other organisations as part of the Harden Village Council Plan.

### DOMESTIC & NEIGHBOURHOOD

### SETTLEMENT EDGE

### BRADFORD HABITAT NETWORK

Examples of green infrastructure at different scales in Harden

**POLICY GS1: GREEN INFRASTRUCTURE**

New developments will be expected:

- to include provision of green infrastructure, and where possible, connect with the existing Bradford Wildlife Habitat Network and/or Local Wildlife Sites;
- not to sever existing green infrastructure networks including Local Wildlife Sites or the Bradford Wildlife habitat Network;
- to aim for biodiversity net gain;
- to replace any trees which are proposed to be removed due to development at a ratio of at least 3:1. If it is not possible to secure new or replacement tree planting within the site, the trees should be planting at a suitable location within the Plan area;
- include green infrastructure that supports and enables the free movement of wildlife such as hedgehog gaps, and include boxes for bats, birds and insects.
- to ensure that the design and management of green infrastructure respects and enhances the character and distinctiveness of an area with regard to habitats and landscape types. Planting that is beneficial for pollinators and wildlife is preferred.

Green infrastructure is a broad-term used to describe natural and semi-natural features of all scales within and between towns and villages from street trees and planting up to rivers, woodland and moorland.

CBMDC Strategic Core Policy SC6 considers Green Infrastructure as land which already contributes towards, or has the potential to contribute towards the following:

1. Retention, creation and enhancement of important habitats and ecological networks.
2. Resilience to climate change and sustainable design.
3. Important attributes of natural green space, connectivity to other green spaces and a local need for open space.
4. Valued landscapes and local distinctiveness and amenity, particularly within the urban core.
5. Historic parks and landscapes and the setting for heritage assets.
6. Improving opportunities for walking, cycling and horseriding, establishing strategic green links and enhancing the rights of way network in urban and rural parts of the district.

Harden includes many sites that are designated as Local Wildlife Sites or are within the Bradford Wildlife Habitat Network as well as falling under other classifications of green infrastructure.

#### Local Wildlife Sites:

- Harden Moor
- Deepcliffe Wood
- St Ives Estate
- Goit Stock Wood & Grasslands
- Harden Beck
- Cuckoo Nest Wood

#### Bradford Wildlife Habitat Network:

- St Ives Estate
- Woodbank
- Harden Grange
- Cuckoo Nest Wood

#### Managed green space for local leisure and recreation:

- Harden Park
- Harden Cricket Pitch
- Harden Football Pitch

#### Water:

- Harden Beck
- Midgram Beck
- The Coppice Pond

#### Historic setting:

- Green space surrounding Ryecroft Conservation Area

This policy seeks to achieve aims & objectives

4

## KEY OBJECTIVES

- Connect or reconnect areas of green infrastructure to enable wildlife to move more freely and for humans to enjoy a greater series of interconnected green spaces
- Provide spaces for leisure, recreation and relaxation contributing to and improving mental and physical wellbeing
- Enhancement of a site's multi-functionality and ability to play a key role in climate change adaption and mitigation, carbon capture, improve wildlife and biodiversity benefits, increased food production, and improved water management and flood risk
- Encourage enhancement of sites in line with their strategic objectives in relation to habitats and species. This might include promoting the planting of native broad-leaved trees, planting that is beneficial to pollinators or the inclusion of bat and bird boxes or hedgehog gaps between properties or physical boundaries
- Deliver green infrastructure provision at a variety of scales from domestic, street, neighbourhood, village, district and regional levels

## **POLICY GS2: LOCAL GREEN SPACES**

The following spaces, as identified on the proposals map, are to be designated as local green spaces, and therefore protected from future development.

- A) Open space to east of Ryecroft
- B) Open space to west of Ryecroft
- D) Dale Bank
- I) Mill pond and surrounding woodland
- K) Memorial park off Harden Road
- L) Cricket ground off Harden Road
- M) Football pitch off Harden Road
- N) Land opposite Cricket ground

The enhancement of these sites to improve access, amenity, leisure and recreational opportunities, wildlife or biodiversity opportunities is supported and encouraged.

Full Local Green Space (LGS) assessments have been undertaken and are included in the appendix to this plan. Sites which have been filtered out are also included in the appendix.

Local Green Spaces are designated sites that are protected from development due to the contribution they make to the local area. There is specific criteria for designating sites so not all green spaces will be suitable for Local Green Space listing. The listing criteria is shown below:

The designation should only be used:

- where the green space is in reasonably close proximity to the community it serves;
- where the green area is demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquillity or richness of its wildlife;
- and where the green area concerned is local in character and is not an extensive tract of land.

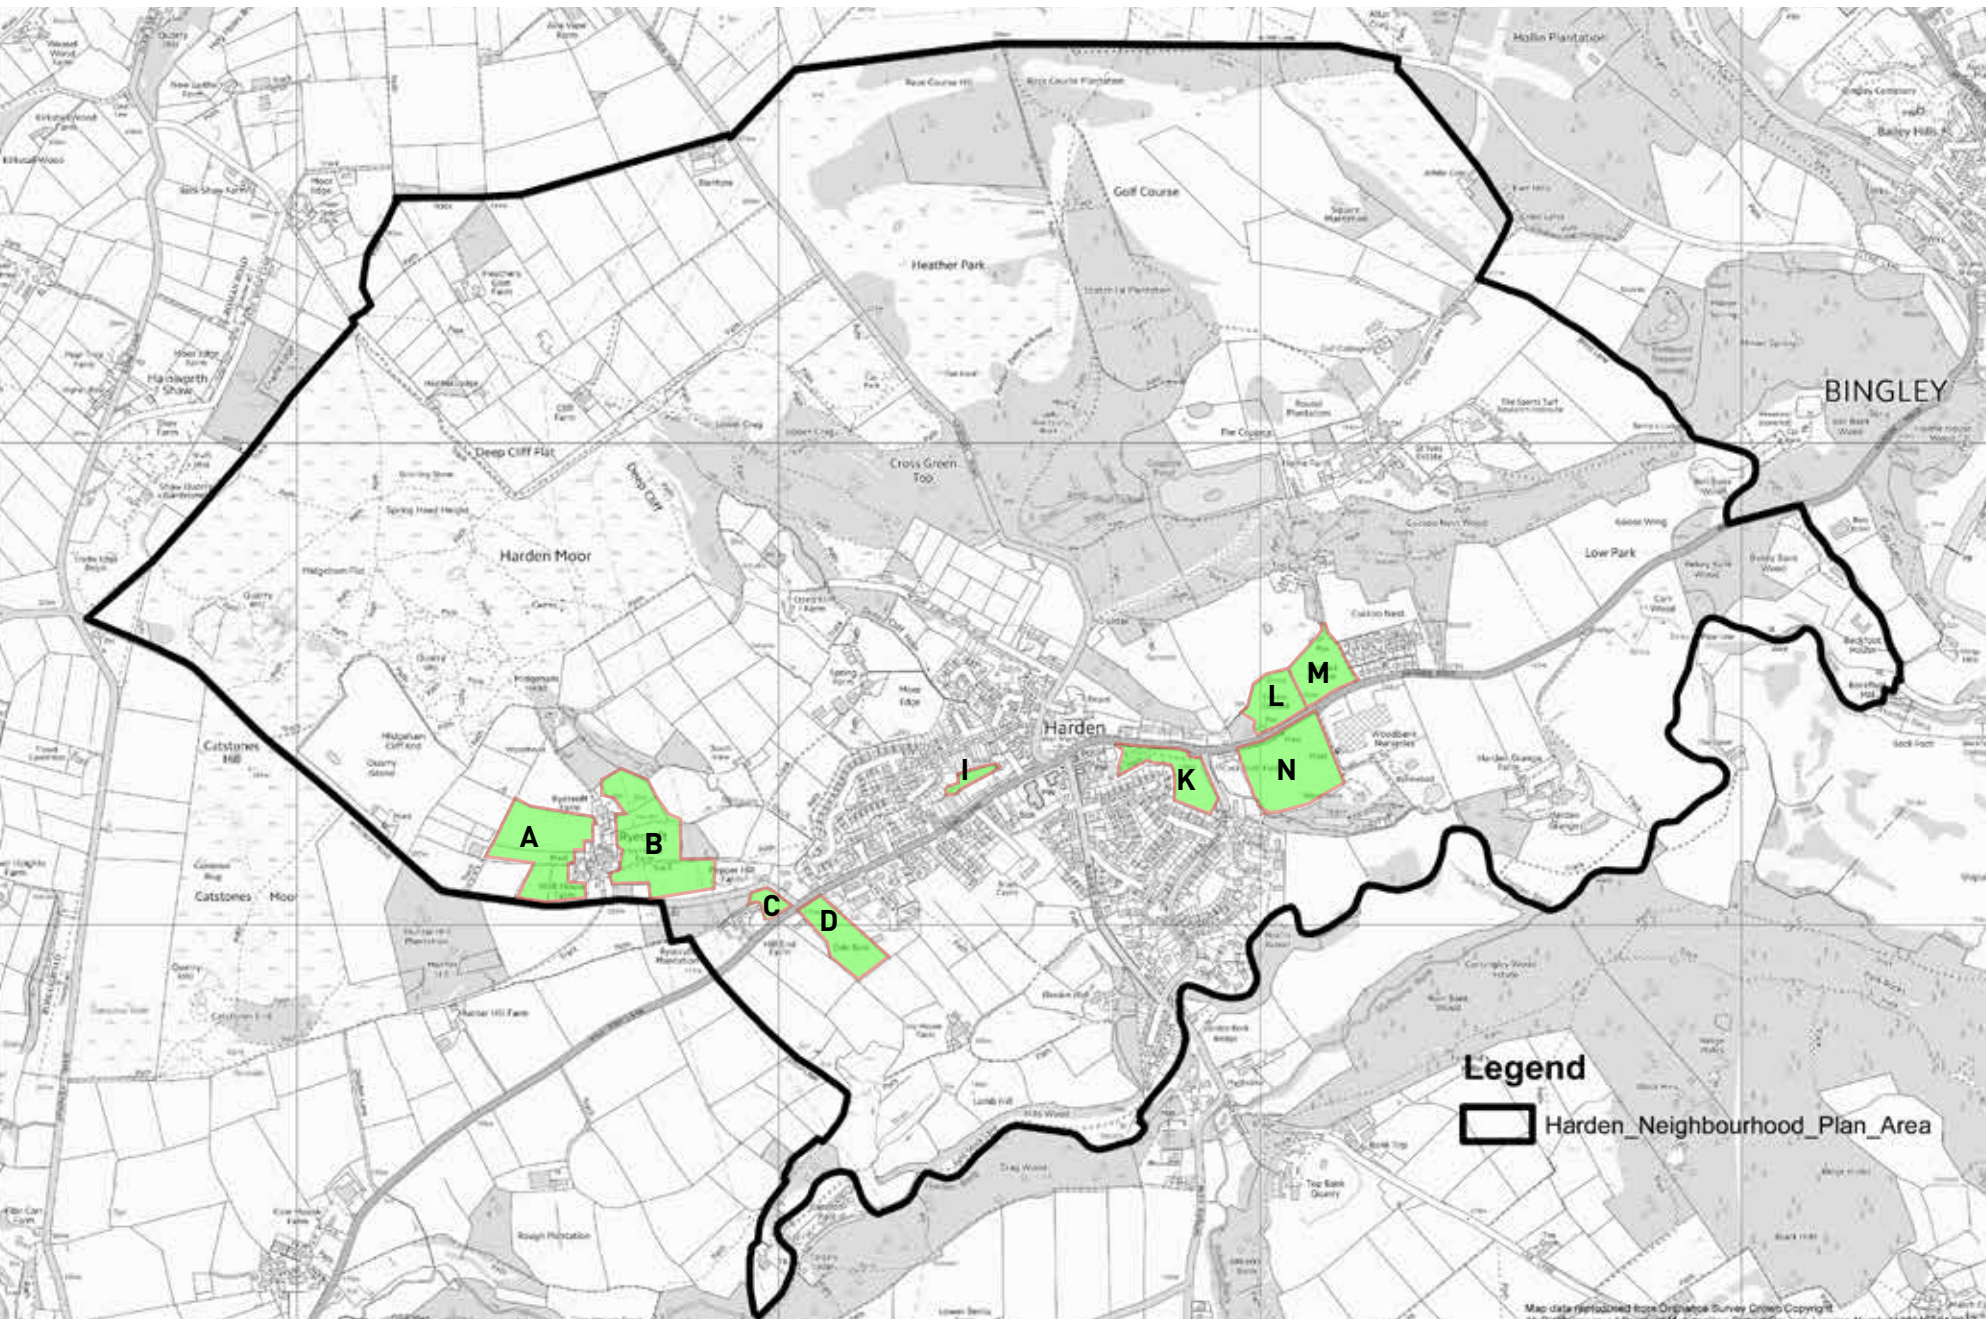

These green spaces have been suggested by members of the steering group and have been assessed against the criteria set out in the National Planning Policy Framework and National Planning Practice Guidance.

This policy seeks to achieve aims & objectives

4

MAP OF PROPOSED LOCAL GREEN SPACES

**POLICY GS3: HARDEN WILDLIFE & HABITAT NETWORK**

Proposals that provide biodiversity enhancements to green spaces in Harden, including connecting or reconnecting separate spaces, especially on the following sites, are encouraged and will be supported:

Local Wildlife Sites & Bradford Wildlife Habitat Network sites:

- St Ives Estate
- Harden Moor
- Deepcliffe Wood
- Harden Beck
- Goit Stock wood and grasslands

Biodiversity enhancements should be undertaken in accordance with the biodiversity objectives for each site to ensure its enhancement is appropriate for the species, habitat and landscape classification.

Harden has a rich variety of natural assets including Harden Moor and Deepcliffe Wood, Goit Stock Wood and its Grasslands, St Ives Estate, and Harden Beck. These sites play an important role in supporting biodiversity locally and regionally. They are home to species such as brown trout that breed in Harden Beck, kestrels and willow warblers on Harden Moor, and a wide-range of species at St Ives including deer, badgers, foxes, tawny and little owls, greater spotted woodpeckers, fresh water shrimp and a variety of bats.

The connection and reconnection of green spaces, especially to Local Wildlife Sites and sites within the Bradford Wildlife Habitat Network, can help to create wildlife corridors that support the movement of fauna throughout the area.

There are also opportunities to create a series of interlinked green spaces that can contribute to local recreational and leisure activities. These are expected to be delivered either as part of new developments or through the Harden Village Action Plan.

This policy seeks to achieve aims & objectives

4

## **POLICY GS4: TREE PLANTING**

New tree planting within the village is encouraged and will be supported, providing the proposal complies with other relevant development plan policies and permission to plant the tree(s) has been granted by the landowner.

New trees should be native species that respect and enhance the biodiversity, character, and distinctiveness of an area with regard to habitats, landscape types and the surrounding built environment.

It is expected that local groups, either existing or possible future groups, will liaise with landowners and identify suitable sites for new tree planting in addition to raising funds, obtaining grants and undertaking the work and ongoing management.

The current climate emergency requires urgent attention and planting new trees can help to mitigate against some of these impacts.

Benefits from tree planting include:

- reducing air pollution
- absorbing CO2 from the atmosphere
- providing shade and shelter
- helping to mitigate against flooding
- improving mental and physical wellbeing
- creating vital homes for wildlife.

Initial engagement identified that:

- The rural nature, countryside and green spaces were the 2nd most popular response to what people like to most about Harden.
- Green spaces was the most important issue when people were asked what the Neighbourhood Plan should cover.

This policy seeks to achieve aims & objectives

4

# 06 HERITAGE

## 6.0 INTRODUCTION

Excavations on Leech Lane led to discoveries of pottery, coins and elephant ivory which suggest Harden was once a Roman settlement around 150 AD. The first written record of Harden is in the Domesday Book of 1086 written as 'Hateltone' or 'Hateltun. Presently, there are some examples of buildings dating back to the 17th century with many more examples from the 18th and 19th centuries.

Harden, like many settlements in the area was predominantly home to agricultural workers, and later, mill workers. Many of these buildings are still present today, although most now serve alternative uses, such as residential and have been altered over time, meaning many no longer contain all of their original architectural features.

The Neighbourhood Plan seeks to protect heritage assets, and supports their sensitive enhancement and restoration. Listed buildings and monuments are sufficiently covered and protected by national and local planning policy so these are not addressed in this section.

## 6.1 COMMUNITY ENGAGEMENT IDENTIFIED THAT:

- 43 people felt the Neighbourhood Plan should promote heritage and conservation
- Retaining the character of the village was the most popular response when people were asked what Harden should be like in 15 years with 34 responses

## 6.2 KEY OBJECTIVES

- Conserve local heritage and ensure new developments are in keeping with the local character
- Promote sensitive enhancement and /or restoration of non-designated heritage assets

**POLICY HT1: HERITAGE**

New developments will be expected to respect and protect designated and non-designated heritage assets and their settings.

The development or alteration of a non-designated heritage asset should be undertaken sensitively, respecting the historical and architectural integrity of the buildings. Proposals to restore non-designated heritage assets and original features will be supported, providing all other material planning considerations are satisfied.

This policy seeks to protect heritage assets from development and supports their sensitive enhancement and restoration.

43 people felt the plan should include policies that promote heritage and conservation at the initial engagement exercises.

This policy seeks to achieve aims & objectives

3

4

A HERITAGE ASSESSMENT WILL BE COMMISSIONED TO ASSESS THE QUALITY AND APPROPRIATENESS OF DESIGNATING AROUND 30 BUILDINGS THROUGHOUT THE VILLAGE. THIS WILL HELP TO IDENTIFY KEY ARCHITECTURAL AND HISTORICAL FEATURES AND PROVIDE GUIDANCE ON HOW THEY SHOULD BE CONSERVED OR RESTORED.

THIS HAS YET TO BE COMPLETED BUT THE RESULTS OF THE HERITAGE ASSESSMENT WILL SUPPORT , PROVIDE ROBUST EVIDENCE FOR AND JUSTIFY EACH BUILDING'S INCLUSION IN THIS POLICY

## POLICY HT2: DRY STONE WALLS

Development proposals affecting a dry stone wall should be designed to retain or enhance it. Proposals for new dry stone walls that make a positive contribution to the network of dry stone walls across the village will be supported.

Dry stone walls are a defining feature of Harden that contributes to the rural character of the village.

For over 300 years quarrying was prominent on the western edge of Harden Moor with many quarrymen residing in the hamlet of Ryecroft. Yeadonian Sandstone quarried here was used to build many local buildings and dry stone walls. Stone was also quarried in Harden to help build Saltaire.

Engagement exercises identified that:

- Dry stones walls are a defining characteristic of Harden that are locally valued
- 43 people felt the plan should include policies that promote heritage and conservation at the initial engagement exercises.

This policy seeks to achieve aims & objectives

3

4

## POLICY HT3: KEY VIEWS

Development proposals should retain the following key views and vistas, as identified on the map opposite:

1. view south from the cricket ground towards Wilsden
2. view south towards Goitstock from Hill End Lane
3. views west and east from Rycroft
4. view north from village centre toward listed cottages (Crowthers)
5. view west from Wilsden Road towards Ivy House Farm
6. view from St Ives towards Woodbank and the bottom of Blackhills

The key views listed above have been suggested by members of the project group (shown in pink). Other important views have also been mapped, though it is anticipated they will be less likely to be affected by development (shown in blue).

The local topography and landscape provide many great views and vistas of the surrounding area. These are highly valued by residents and visitors and contribute to the rural character of Harden.

Initial engagement identified that:

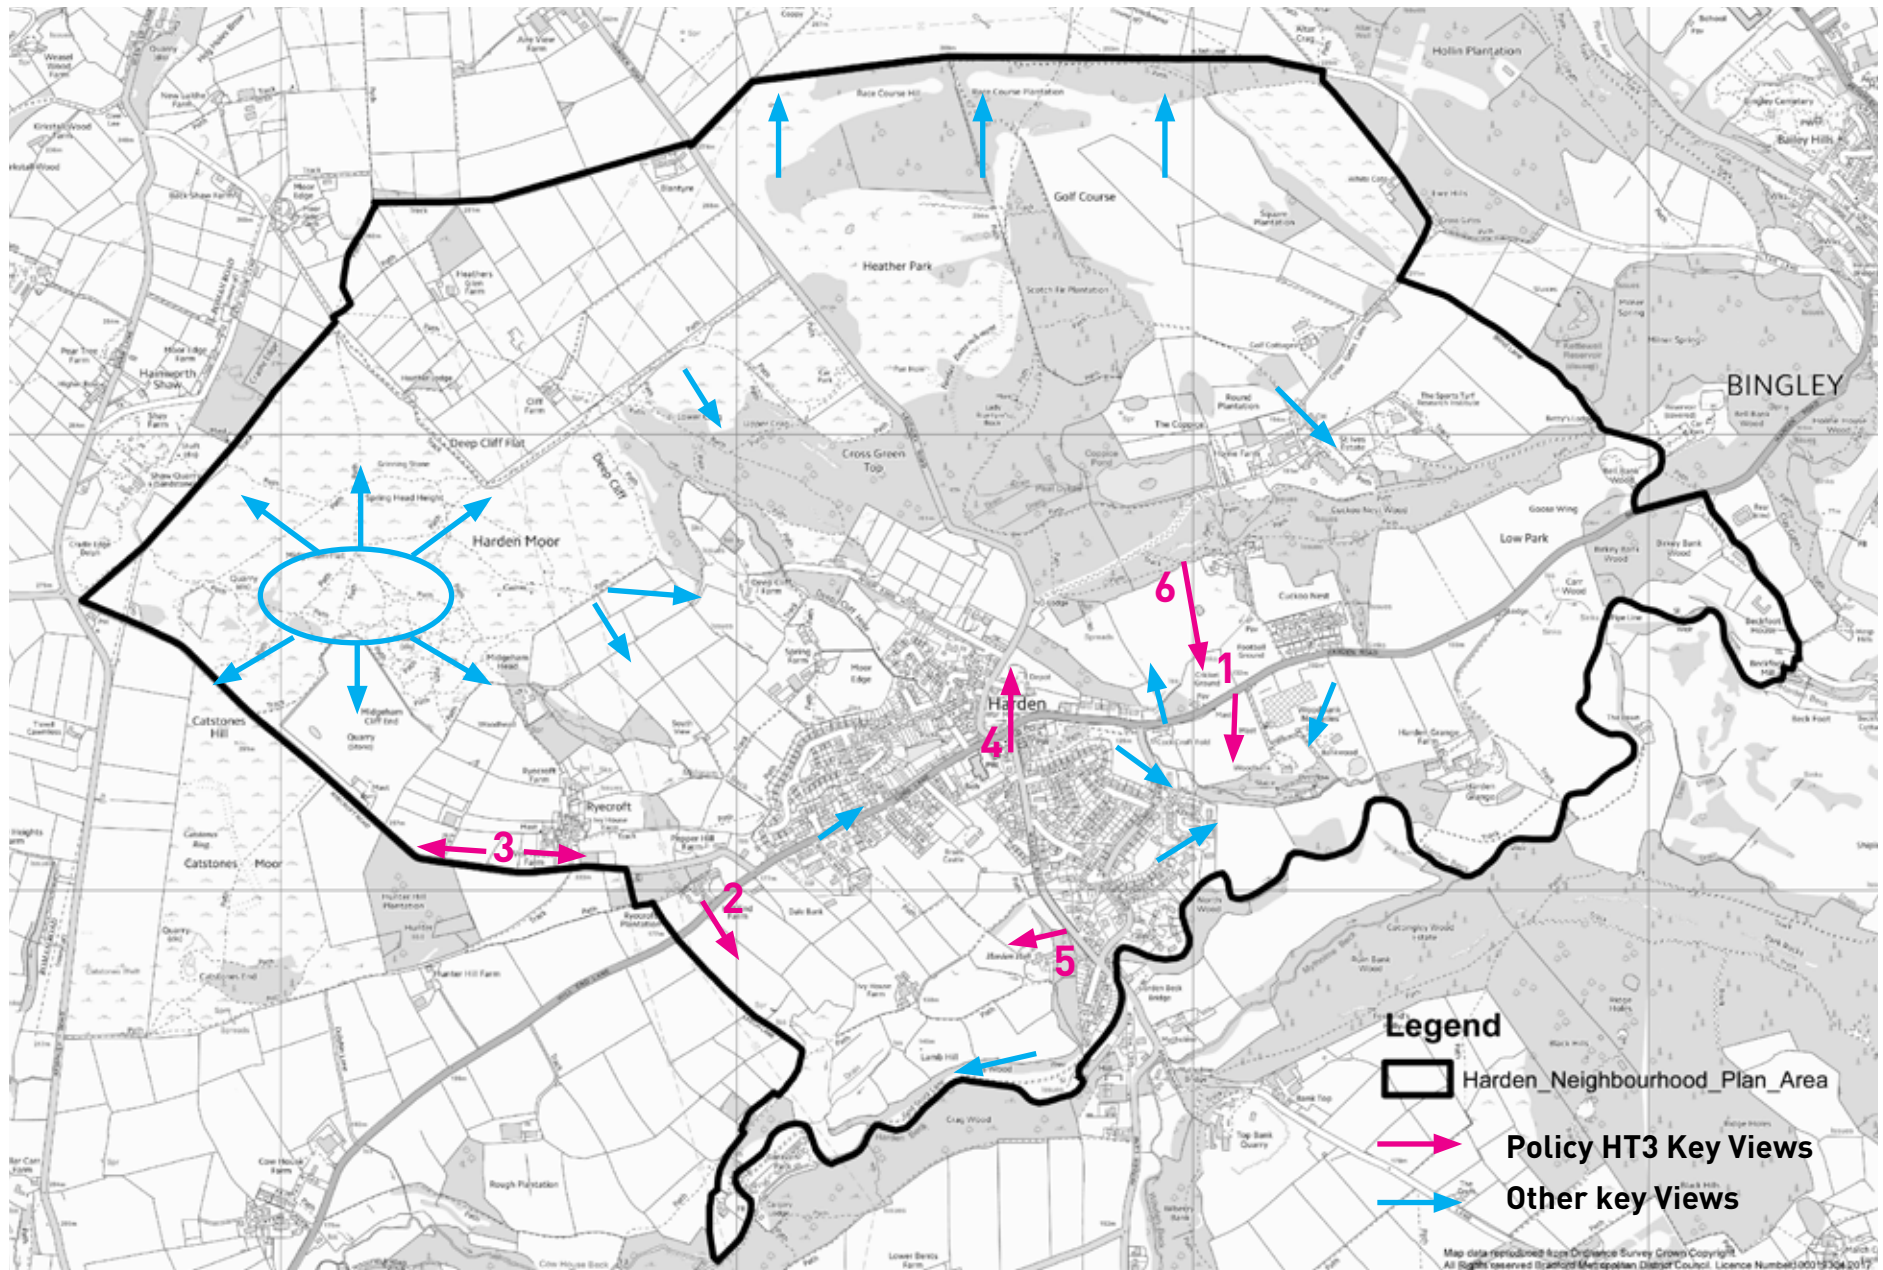

- The rural nature, countryside and green spaces were the 2nd most popular response to what people like to most about Harden.
- Green spaces was the most important issue when people were asked what the Neighbourhood Plan should cover.

This policy seeks to achieve aims & objectives

4

### KEY VIEWS/VISTAS

WHEN THE HERITAGE ASSESSMENT HAS BEEN DONE WE WILL REVISE THIS SECTION.

THE PHOTOS OPPOSITE WILL BE REPLACED TO MATCH THE KEY VIEWS MENTIONED IN POLICY HT3

# 07

## BUSINESS & EMPLOYMENT

### **7.0 INTRODUCTION**

Harden like many rural communities has seen a decline in traditional industry over the last century. The majority of working residents commute to work outside of the parish to nearby towns and cities.

There are many small businesses within the village that contribute to and support the daily lives of residents although these usually employ only small numbers of staff.

### **7.1 COMMUNITY ENGAGEMENT IDENTIFIED THAT**

- There is demand locally for new workspaces such as workshops, small offices or shared workspaces
- Residents have requested additional provision of shops, such as a cafe or bakery

### **7.2 KEY OBJECTIVES**

- Promote Harden as a location for small businesses
- Encourage additional provision of local amenities such as shop
- Secure new workspaces such as shared offices or workshops

## **POLICY BE1: BUSINESS & EMPLOYMENT**

Existing employment generating sites will be protected for continued economic use.

Support is given for new small-scale commercial enterprise and businesses, especially those that would provide convenience and/or reduce need for residents and visitors to travel outside of the parish (cafe, shops etc) and improve sustainability.

Support is given to the reuse of former agricultural or mill buildings, providing all other material planning considerations are satisfied.

Support is given to the development of shared office space or co-working spaces, providing all other material planning considerations are satisfied.

There are several employment generating sites within the village and the Neighbourhood Plan would like to retain these for continued economic use. It is felt that employment opportunities within the village should be protected, as far as possible, to ensure that there continues to be local jobs in Harden.

This policy seeks to achieve aims & objectives

9

# 08 VILLAGE PROJECTS

## 8.0 INTRODUCTION

A Village Plan is being produced to deliver projects that cannot be covered or dealt with through the Neighbourhood Plan.

Throughout engagement and consultation there have been projects suggested by members of the community covering a wide range of topics including public transport, community facilities and services, and the natural environment.

## **HARDEN TO BINGLEY ACTIVE TRAVEL PROJECT**

Improved pedestrian and cycle connections from Harden to Bingley have been suggested by members of the community. It is felt that the primary existing connection eastwards along Harden Road is unsafe, unwelcoming and not suitable for wheelchairs, prams or those challenged by mobility issues.

A project could be undertaken locally that seeks to source funding to help deliver an improved pedestrian and cycle connection between Harden and Bingley. This would help to promote sustainable and active travel which can contribute to the health and wellbeing of the community and help to reduce the number of journeys by car.

The siting or location has yet to be considered in depth - at this stage we are seeking support from members of the community.

## **BIODIVERSITY ENHANCEMENTS**

There are opportunities to improve the quality and quantity of green spaces in Harden to help contribute to the richness and variety biodiversity and wildlife. This could include the re-wilding of pastures, additional tree and shrub planting, peat and bog restoration and connecting existing green spaces together to help form wildlife corridors and inter-connected green networks.

## **SHARED OFFICE / WORKSPACES**

At initial engagement several respondents cited the lack of local digital workspaces as an opportunity for Harden. More people are choosing to work in freelance or self-employed roles and the digital industry is constantly growing. This is especially true for older people and those in rural communities. It is felt a shared office or workspace would be great for these workers and could help to reduce social isolation.

## **COMMUNITY ENERGY SCHEMES**

Harden is seeking to move towards being a zero carbon village. There are opportunities for projects locally that would generate, store and distribute energy to residences, businesses and community facilities. This could help to reduce demand for energy from the national grid, lowering fuel costs and carbon emissions.

## **ALLOTMENTS & COMMUNITY GARDENING**

Additional allotment provision has been regularly requested by members of the community. This can help contribute to the richness and variety of wildlife and biodiversity in Harden as well as supporting opportunities for sustainable living, food production and improvements to health and wellbeing.

## **HARDEN PARK LODGE**

There are opportunities to bring Harden Park Lodge, situated in the memorial park, back into productive use. This building is part of the village's history and could play a more active role in the community. An initial suggestion is that it could be sensitively refurbished and used as a community cafe, providing a space for members of the community to meet and socialise during the day.

## **SOCIAL ISOLATION**

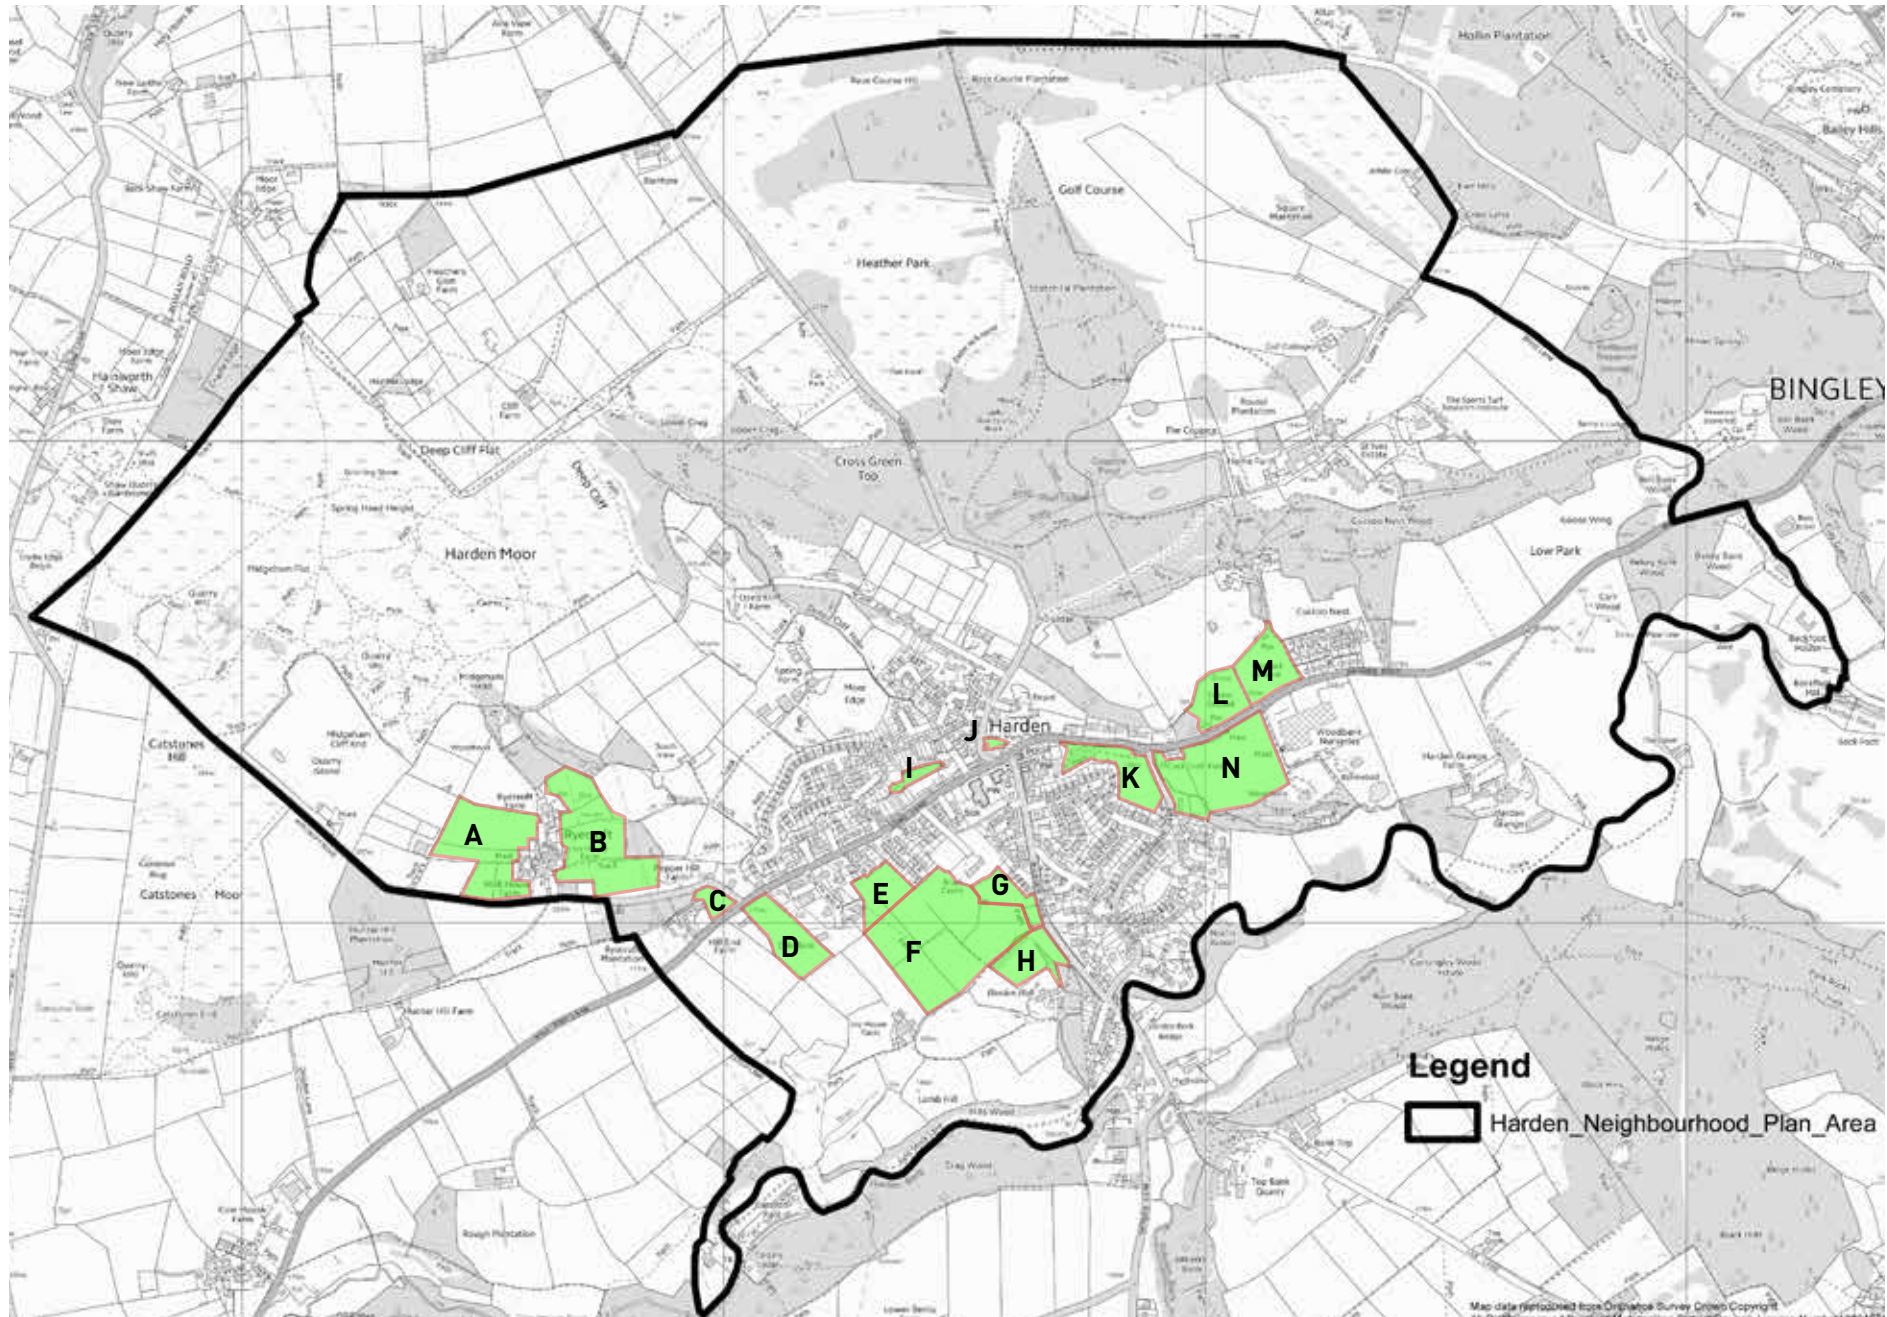

A national and local concern is that people are becoming increasingly isolated and local projects could help to provide spaces aimed at promoting socialisation and interaction. This could include green spaces, community facilities or services dedicated to providing spaces for people to meet and socialise.

# APPENDIX

## APPENDIX

1. **Local Green Space assessments**
2. **Non-designated heritage assessments (to be completed)**
3. **Map of local footpaths and bridleways**

# MAP OF ALL GREEN SPACES ASSESSED

**LOCAL GREEN SPACE ASSESSMENT: A**

<b>Site name &amp; reference letter</b>	Ryecroft west (Ref A.)
<b>Location</b>	North of Ryecroft Road, west of Ryecroft
<b>Size (hectares - ha)</b>	2.9ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is within Ryecroft which is a small settlement 1km west of Harden village centre. Within Ryecroft is around 15 residential properties.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	The site is historically significant as it forms a key part of the Ryecroft Conservation Area and is listed as a Key Open Space in the Conservation Area Appraisal and as an 'area making a positive contribution to character'. The site contributes to the setting of both listed and key unlisted buildings.
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character as it positively contributes to the defining character of the Ryecroft Conservation Area. The boundary treatments are traditional stone walls. The site is not an extensive tract of land.
Summary Assessment	The site is historically significant and positively contributes to the character of the area. This is recognised in the Ryecroft Conservation Appraisal which classifies the sites as a Key Open Space.
Recommendation	<b>DESIGNATE AS LOCAL GREEN SPACE</b>

## Ryecroft Conservation Area

Open Spaces, Trees, Views, Listed and Key Unlisted Buildings

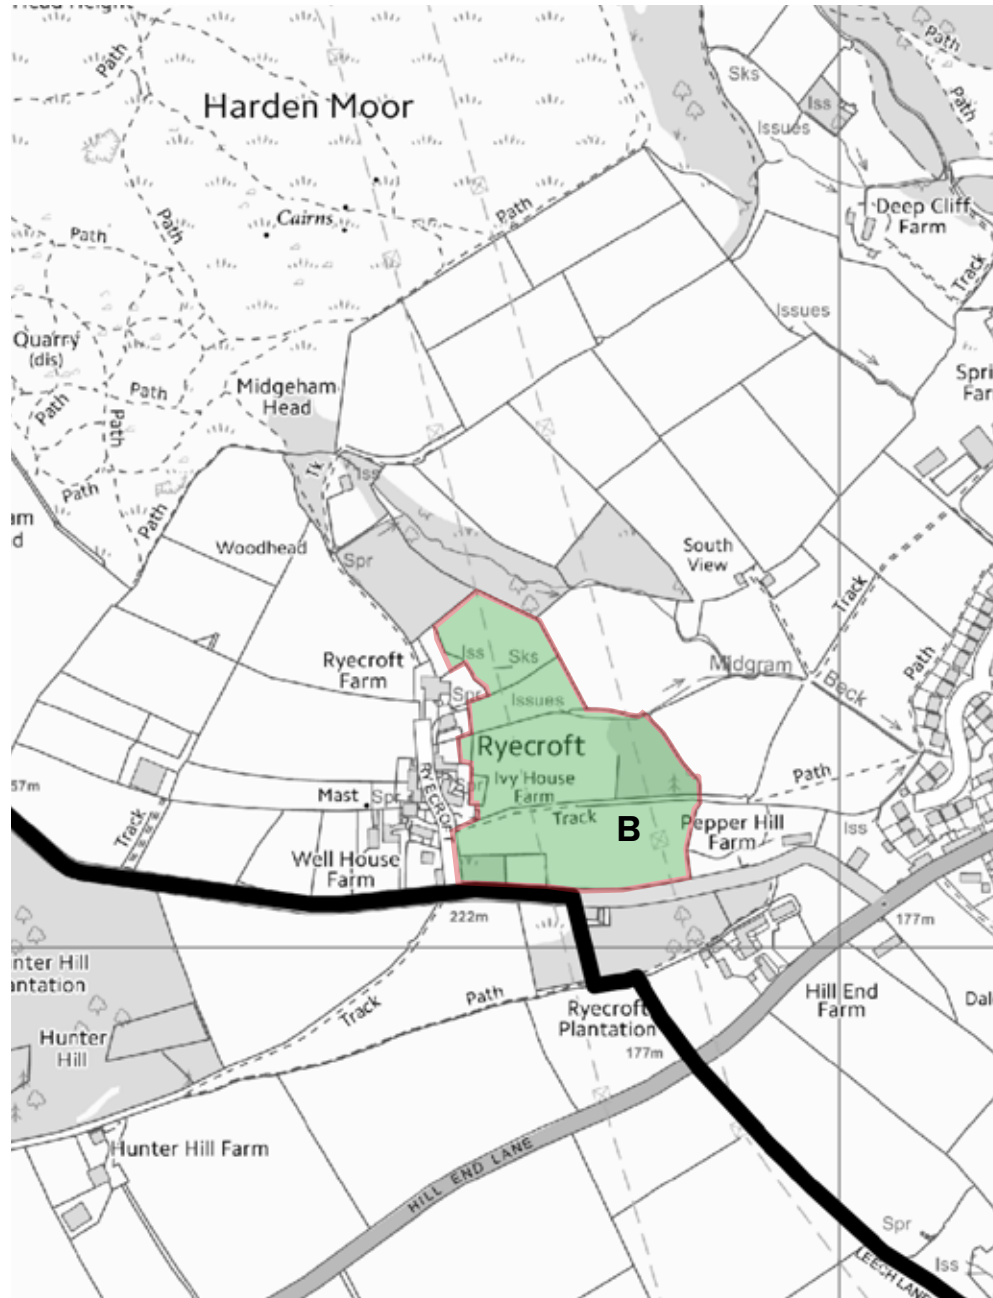

### Key

-  Conservation Area Boundary
-  Key open space
-  Important tree(s)
-  Key view or vista
-  Listed building
-  Key unlisted building

NB This map does not identify key trees individually, but merely indicates where there is at least one important tree.

**LOCAL GREEN SPACE ASSESSMENT: B**

<b>Site name &amp; reference letter</b>	Ryecroft east (Ref B.)
<b>Location</b>	North of Ryecroft Road, east of Ryecroft
<b>Size (hectares - ha)</b>	4.4ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is within Ryecroft which is a small settlement 1km west of Harden village centre. Within Ryecroft is around 15 residential properties.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	The site is historically significant as it forms a key part of the Ryecroft Conservation Area and is listed as a Key Open Space in the Conservation Area Appraisal and as an 'area making a positive contribution to character'. The site contributes to the setting of both listed and key unlisted buildings. The site contains and enables several identified Key Views and Vistas and Several Important Trees
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character as it positively contributes to the defining character of the Ryecroft Conservation Area. The boundary treatments are traditional stone walls. The site is not an extensive tract of land.
Summary Assessment	The site is historically significant and positively contributes to the character of the area. This is recognised in the Ryecroft Conservation Appraisal which classifies the sites as a Key Open Space and includes Key Views / Vistas and Important Trees.
Recommendation	<b>DESIGNATE AS LOCAL GREEN SPACE</b>

## Ryecroft Conservation Area

Open Spaces, Trees, Views, Listed and Key Unlisted Buildings

### Key

-  Conservation Area Boundary
-  Key open space
-  Important tree(s)
-  Key view or vista
-  Listed building
-  Key unlisted building

NB This map does not identify key trees individually, but merely indicates where there is at least one important tree.

**LOCAL GREEN SPACE ASSESSMENT: C**

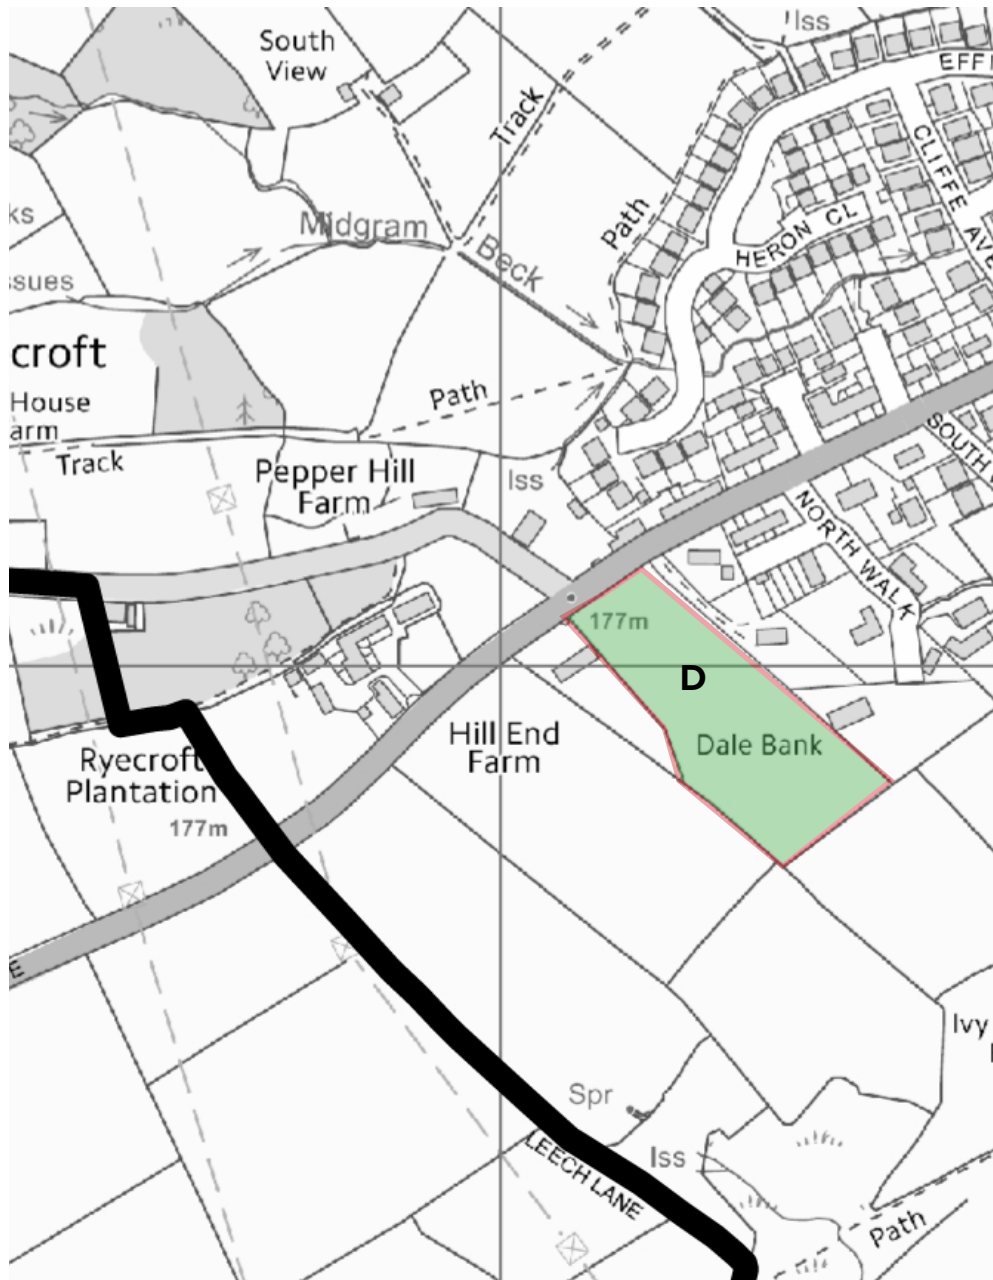

<b>Site name &amp; reference letter</b>	Hill End Lane corner (Ref. C)
<b>Location</b>	Corner of Hill End Lane and Ryecroft Road
<b>Size (hectares - ha)</b>	0.31ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is located at the settlement edge, but is immediately bounded by residential properties on all four sides.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	The site is within the green belt.  To the east of the site on the Ryecroft Road and Hill End Lane junction is grade II listed Hostel Stone and to the west is the grade II listed Hall End Farmhouse. The openness of the site contributes to the setting of these two listed buildings/structures.
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character and is bounded by traditional stone walls. The topography of the site is local in character. The site is not an extensive tract of land.
Summary Assessment	The site contributes to the historic setting and maintains the openness around Hall End Farmhouse and the Hostel Stone.
Recommendation	<b>DESIGNATE AS LOCAL GREEN SPACE</b>

**LOCAL GREEN SPACE ASSESSMENT: D**

<b>Site name &amp; reference letter</b>	Dale Bank (Ref. D)
<b>Location</b>	Land south of Long Lane, east of Dale Bank
<b>Size (hectares - ha)</b>	1.4ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is located at western edge of the settlement boundary. The site has properties immediately to the east and one property immediately to the west. There are several properties to the northeastern corner of the site. The site is therefore within reasonable proximity to the community.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	<p>The site is within the green belt.</p> <p>The site is not within the Bradford Wildlife Habitat Network nor it is a Local Wildlife Site. The site has a high level of landscape value and richness of wildlife. Local residents have reported sightings of owls, deer, bats, and pheasants. It is also used to graze cattle.</p>
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character and is bounded by traditional stone walls. The topography of the site is local in character. The site is not an extensive tract of land.
Summary Assessment	Although the site is within the greenbelt and is afforded a level of protection, it is felt that given its richness of wildlife, the site should be included as a local green space.
Recommendation	<b>DESIGNATE AS LOCAL GREEN SPACE</b>

**LOCAL GREEN SPACE ASSESSMENT: E**

<b>Site name &amp; reference letter</b>	South Walk (Ref. E)
<b>Location</b>	Land south of South Walk
<b>Size (hectares - ha)</b>	0.82ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is located at western edge of the settlement boundary. The site has properties immediately to the north, east and west. The site is in close proximity to the community it serves.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	The site contains a designated footpath which is highly valued by residents as this contributes to leisure and recreational activities locally. The site is not a Local Wildlife Site nor is it within the Bradford Habitat Wildlife Network.
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character is not an extensive tract of land.
Summary Assessment	Despite the presence of a footpath, the site scores poorly against the assessment criteria. The site is one of several sites to be assessed by CBMDC as a potential housing allocation.
Recommendation	<b>DO NOT DESIGNATE AS LOCAL GREEN SPACE</b>

**LOCAL GREEN SPACE ASSESSMENT: Fr**

<b>Site name &amp; reference letter</b>	West of Braes Castle (Ref. F)
<b>Location</b>	Land south and west of Braes Castle
<b>Size (hectares - ha)</b>	5.4ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is located to the southwest of the village centre and is in close proximity to the community it serves.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	The site contains a designated footpath which is highly valued by residents as this contributes to leisure and recreational activities locally. The site is not a Local Wildlife Site nor is it within the Bradford Habitat Wildlife Network. The site is currently in the green belt.
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character. At 5.4ha the site is not necessarily an extensive tract of land but is made up of several smaller fields.
Summary Assessment	Despite the presence of a footpath, the site scores poorly against the assessment criteria. Given the site is currently within the green belt, there would be no additional benefit in designating this as a Local Green Space.
Recommendation	<b>DO NOT DESIGNATE AS LOCAL GREEN SPACE</b>

**LOCAL GREEN SPACE ASSESSMENT: G**

<b>Site name &amp; reference letter</b>	West Wilsden Road (Ref. G)
<b>Location</b>	Land west of Wilsden Road
<b>Size (hectares - ha)</b>	0.6ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is located to the southwest of the village centre and is in close proximity to the community it serves.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	The site provides no recreational value, historic significance or landscape significance. There is no evidence to suggest the site is rich in wildlife.
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character and is bounded by traditional stone walls. The site is not an extensive tract of land.
Summary Assessment	The site fails to meet the assessment criteria. The site is within the green belt and there would be no additional benefit in designating this site as a Local Green Space.
Recommendation	<b>DO NOT DESIGNATE AS LOCAL GREEN SPACE</b>

**LOCAL GREEN SPACE ASSESSMENT: H**

<b>Site name &amp; reference letter</b>	North Harden Hall (Ref. H)
<b>Location</b>	Land north of Harden Hall
<b>Size (hectares - ha)</b>	1.1ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is located to the southwest of the village centre and is in close proximity to the community it serves.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	The site possess recreational value as the site contains a designated footpath that links up with the wider village network supporting walkers and leisure pursuits. The site is within the green belt. The site is not a designated wildlife site. There is no evidence to suggest there is a richness of wildlife.
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character and is bounded by traditional stone walls. The site is not an extensive tract of land.
Summary Assessment	The site fails to meet the assessment criteria. The site is within the green belt and there would be no additional benefit in designating this site as a Local Green Space.
Recommendation	<b>DO NOT DESIGNATE AS LOCAL GREEN SPACE</b>

**LOCAL GREEN SPACE ASSESSMENT: I**

<b>Site name &amp; reference letter</b>	Midgram Beck Millpond (Ref. I)
<b>Location</b>	Beck and millpond north of Long Lane
<b>Size (hectares - ha)</b>	0.1ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is in the village centre and is therefore in close proximity to the community it serves.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	The site is a millpond which forms part of Midgram Beck. Whilst not designated the millpond has some level of landscape significance. The site contributes to wildlife and biodiversity locally.
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character and is not an extensive tract of land.
Summary Assessment	The site provides many wildlife and biodiversity benefits despite not being a designated wildlife site. Improved management of the site, perhaps by local volunteers could improve the quality of the site and provide additional benefits to the local wildlife population.
Recommendation	<b>DESIGNATE AS LOCAL GREEN SPACE</b>

**LOCAL GREEN SPACE ASSESSMENT: J**

<b>Site name &amp; reference letter</b>	Village Green Space at Highfell Grove
<b>Location</b>	Highfell Grove off Keighley Road
<b>Size (hectares - ha)</b>	2.6ha (approx)
<b>Proximity to community served</b> (ref NPPF 100a)	The site is in the village centre and is therefore in close proximity to the community it serves.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	It is expected the site will provide recreational opportunities to local residents once complete.
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character and is not an extensive tract of land.
Summary Assessment	Despite being indicated in the planning application for the nearby dwellings as village green space, the group have been informed that it is private land with no public right of use.
Recommendation	<b>DO NOT DESIGNATE AS LOCAL GREEN SPACE</b>

**LOCAL GREEN SPACE ASSESSMENT: K**

<b>Site name &amp; reference letter</b>	Harden Park (Ref. K)
<b>Location</b>	South of Harden Road, west of Narrow Lane
<b>Size (hectares - ha)</b>	1.5ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is within close proximity to the community it serves. There are residential properties immediately to the south and west of the site.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	<p>The site provides a high level of recreational value. Within the site is a children's playground equipped with play equipment. This is well-used by young people, especially those that use the nearby nursery facilities.</p> <p>The site is popular with dog walkers, cyclists and is also used for informal sport and leisure activities.</p> <p>The site is not a designated wildlife site but still contributes to wildlife and biodiversity through its provision of mature trees, hedges and shrubs.</p>
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	<p>The site is local in character. The boundary of the park is made from traditional stone.</p> <p>The site is not an extensive tract of land.</p>
Summary Assessment	The site has a high level of recreational value and is popular amongst the local community. The provision of play equipment is well-used and the rest of the site provides informal sports and leisure opportunities.
Recommendation	<b>DESIGNATE AS LOCAL GREEN SPACE</b>

# LOCAL GREEN SPACE ASSESSMENT

**LOCAL GREEN SPACE ASSESSMENT: L**

<b>Site name &amp; reference letter</b>	Harden Cricket Ground ref. L
<b>Location</b>	North of Harden Road
<b>Size (hectares - ha)</b>	1.6ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is 450m east of the village centre and has residential properties to the east and west of the site. The site is within close proximity to the community it serves.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	<p>The site has a high level of recreational value and accounts for one of the few sporting facilities within the village. Harden Cricket Club has 6 active teams, including 3 youth teams.</p> <p>There is an area within the cricket club grounds measuring 0.3ha of mature planting and vegetation. Whilst this is not a designated wildlife site, it is 169m north of the Bradford Wildlife Habitat Network site near Woodbank, and is 230m south of St Ives which is a Local Wildlife Site and within the Bradford Wildlife Habitat Network. There is potential for this area of the site to contribute to wildlife and biodiversity given its location and proximity to other sites.</p>
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character. It is bounded by traditional stone walls. It is not an extensive tract of land.
Summary Assessment	The site contributes greatly to recreational opportunities locally and therefore has a high level of recreational value. There is also potential for the site to positively contribute to local wildlife and biodiversity.
Recommendation	<b>DESIGNATE AS LOCAL GREEN SPACE</b>

**LOCAL GREEN SPACE ASSESSMENT: M**

<b>Site name &amp; reference letter</b>	Harden Football Ground (ref M)
<b>Location</b>	North of Harden Road
<b>Size (hectares - ha)</b>	1.1ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is 490m east of the village centre and has residential properties to the east and immediately to the west of the site. The site is within close proximity to the community it serves.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	The site has a high level of recreational value and accounts for one of the few sporting facilities within the village. The ground is well used by Wilsden Juniors AFC.
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character. It is bounded by traditional stone walls. It is not an extensive tract of land.
Summary Assessment	The site contributes greatly to recreational opportunities locally and therefore has a high level of recreational value.
Recommendation	<b>DESIGNATE AS LOCAL GREEN SPACE</b>

**LOCAL GREEN SPACE ASSESSMENT: N**

<b>Site name &amp; reference letter</b>	Woodbank (Ref. N)
<b>Location</b>	Land south of Harden Road
<b>Size (hectares - ha)</b>	2.7ha
<b>Proximity to community served</b> (ref NPPF 100a)	The site is east of the village centre and is in close proximity to several residential properties. The site is within close proximity to the community it serves.
<b>Landscape significance, Historic significance, Recreational value, Wildlife richness</b> (ref NPPF 100b)	The site bounds Woodbank which is part of the Bradford Wildlife Habitat Network and at its southern edge borders Midgram Beck. Because of its siting next to the BWHN the site possesses a richness of wildlife. To the south east of the site is Woodbank, a grade II listed property so the site also contributes to the setting of a historically significant building.
<b>Local in character / not an extensive tract of land</b> (ref NPPF 100c)	The site is local in character and is not an extensive tract of land. The northern site boundary is made of traditional stone walls. The site enables key distant views of the wider landscape and near views of Woodbank (BWHN)
Summary Assessment	The site shares a border with Woodbank which is part of the Bradford Wildlife Habitat Network and therefore contributes greatly to the richness of wildlife in the area. Species spotted on the site include herons, deer, buzzards and grey wagtails. The site also contributes to the setting of grade II listed Woodbank and would contribute in the aim of connecting green spaces and wildlife sites within the village to provide greater connectivity and movement for wildlife.
Recommendation	<b>DESIGNATE AS LOCAL GREEN SPACE</b>

# LOCAL GREEN SPACE ASSESSMENT

AWAITING RESULTS OF HERITAGE ASSESSMENT TO INFORM  
THIS SECTION

## NON-DESIGNATED HERITAGE ASSETS ASSESSMENT

Feature name ( Map ref no.)	Location	Description	Why is the feature of interest and significance? What evidence exists to support the proposed selection?
